Our Story

Let's Plan is a conference where corporate, wedding and event planners can receive vital growth and development for their business. We will share the fundamental principles to apply to make your business more profitable and efficient. Through education, exciting activities and networking opportunities, our attendees will walk away with more than inspiration. They will leave with an action plan in hand and a support team to continue to guide them. This is not your average conference. This is an experience! From the moment attendees walk through our doors, they will encounter hands on details, live interactions and actionable information.
